High Temperatures Sunday

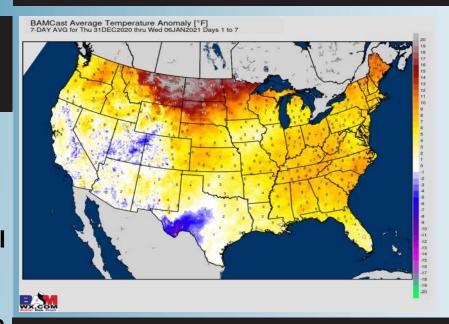

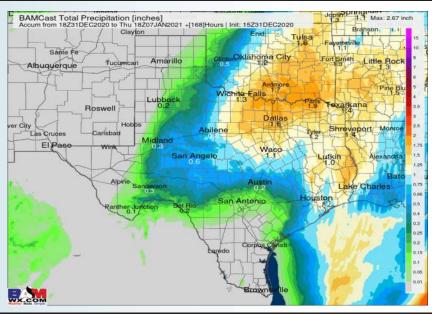

Long-Range Forecast Discussion

- Above normal temperatures are expected before a cold front passes today. After frontal passage temps will be cooler into Friday and Saturday. Early indications hint that some heavy precipitation will be associated with this frontal system.
- Our latest favored week 2 guidance features the Houston area at about normal temps and about "normal" precipitation. Periodic shots of precipitation will be possible as these fronts pass the area.
 - Forecast features the Houston area at below normal temperatures and below normal precipitation. Long range guidance continues to favor more of a cooler pattern for the S US heading into the New Year.
