Week 1 Forecast

Long-Range Forecast Discussion

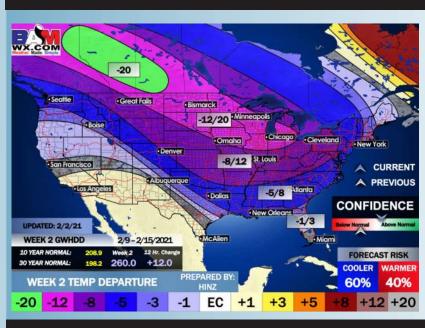

- ➤ An overall very dry and slightly warmer than normal week are in store for the Houston area.

 Next best chance for precipitation looks to come Friday with another front that will work through the area.
- The pattern turns colder than normal for week 2 here...with a bit more influential jet stream we think the pattern can grow a bit wetter here as well vs week 1.
 - "Normal" conditions regarding temps vs normal look in store for the 2nd half of February...this may allow the pattern to get a bit more active as well similar to the week 2 period.
