Short-Term Forecast Discussion

- Expecting quiet weather through the rest of the day today.
- For the boarding station we continue to favor 15-25 MPH sustained winds, with gusts 25-35 MPH coming from the North for most of the day.
- Temps this evening likely drop back into the lower 30s
- *Fog is not anticipated the rest of the day today.*

Sustained Winds (11 PM CT)

Simulated Radar Snapshot (11 PM CT)

Temperatures 11 PM CT

Short-Term Forecast Discussion

- Dry weather is anticipated into Friday
- Winds will continue to come offshore (out of the N), however decreasing through the day. The first half of the day features sustained winds 10-20 MPH with gusts locally higher, while the back half of the day will have sustained winds 8-13 MPH with a few isolated gusts to 15 MPH.
- Highs on Friday look to reach the mid 40s across the area
 - *No fog is anticipated Friday.*

Sustained Winds (10 AM CT)

Simulated Radar Snapshot (3 PM CT)

High Temperatures Friday

Short-Term Forecast Discussion

- Saturday is expected to be a quieter day
- Winds Friday night and into the AM Sat will be very light. During the day, winds will turn more onshore (from SE) at 8-13 MPH with gusts 13-18 MPH the first half of the day, sustained winds 10-15 MPH the back half of the day.
- Temps on Saturday are looking to push into the mid 50s.
- *No fog is anticipated for the boarding station and surrounding areas for Sat.*

Sustained Winds (6 PM CT)

Simulated Radar Snapshot (1 PM CT)

High Temperatures Saturday

Week 1 Forecast

Long-Range Forecast Discussion

- The next best chance for precipitation looks to come on Monday, however at this distance these chances look rather weak. Temps will stay below average over the next 7 days, however temps will gradually increase moving forward
- Week 2 we are expecting to be slightly cooler than normal but also drier than normal. The cooler than normal temps will not be what temps over the past few days have been like.

Week 2 Forecast

Weeks 3/4 Forecast

- The end of Feb and the beginning of Mar we are anticipating conditions to be above normal regarding temps and below normal regarding precip.
