#### **Week 1 Forecast**

# Long-Range Forecast Discussion

- below normal over the next week. The week starts out quiet down here, eyeing our best precip chance come Friday later this week, turning drier into the week.
- The week 2 period will see a warm up to seasonable / above normal temperatures. Best precipitation will stay just east in the Deep South with near normal precipitation likely.
  - We expect that a warmer pattern develops as we work into May with the potential for drier risks to re-establish under a ridge of high pressure.
