Week 1 Forecast

Long-Range Forecast Discussion

- Precipitation chances will little to none over the next week across the area. Temperatures will average out close to normal as a whole over the next week as well (but increasing each day going forward), but nothing notable.
 - Precipitation looks to continue to stay below normal in the week 2 timeframe, temps are still anticipated to be slightly above normal as well.
 - Expectations are for a below normal pattern for precipitation risk for the Houston area for weeks 3 + 4. Temperatures are anticipated to average out to near normal for this time frame.
