Houston Pilots Extended Range Visibility Report

Monday, 11/15/21

Keeping an eye on Fog potential for Monday morning as some data suggests this possibility. The light winds in the morning would open up the opportunity. However, not all data is on board and will need to see more Easterly winds to be realized before this becomes a more pronounced threat.

Tuesday, 11/16/21

Winds are anticipated to be on the increase into TUE morning. No fog currently favored because of this.
