Houston Pilots Forecast Package

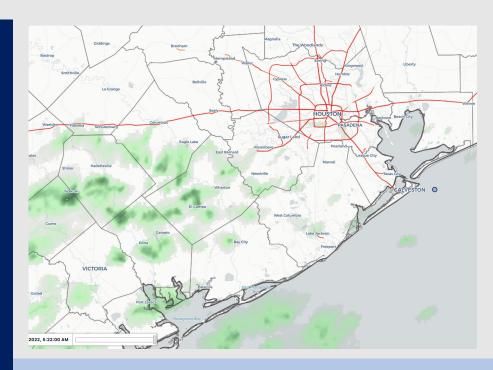

Updated: 5:00 AM CT

Friday, January 28, 2022

Forecasters: Vince Bryan

Weather Headlines

- Isolated shower risk continues this AM, but our next best opportunity would be next Monday. Eyeing for the potential of more widespread rain and a few thunderstorms possible Monday.
- Watching today for slightly elevated winds as this disturbance passes through the area.
- Signal for fog continues to look weak over the next several days.

Radar/ NWS Alerts: 5:00 AM CT

As always, please do not hesitate to reach out to us with any forecast questions via the chat option on the Weather Porthole or our on-call number, (317)-560-8122 press 1 for forecast questions.

Houston Pilots Extended Range Visibility Report

Monday, 1/31/22

Worth watching trends on Monday out ahead of a shot of precipitation, but fog is currently not in the forecast.

Tuesday, 2/1/22

Pending timing of precipitation exit on Monday, patchy fog could be possible. This would not be sea fog, but rather fog that mainly impacts inland areas and is out in a couple hours in the AM.

Above Below Normal Normal

Wednesday, 2/2/22

Fog is currently not anticipated for Wednesday.

Confidence Above Normal Below Normal

Daily Fog Chance									
Monday AM	Unlikely								
Tuesday AM	Possible								
Wednesday AM	Unlikely								

Houston Pilots: Fri. 1/28/2022

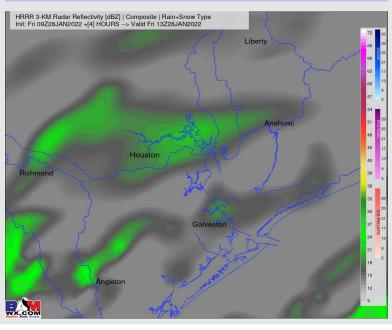

Forecast Discussion

Precip: Out through ~10 AM, scattered chances for hit and miss pockets of light precip will be possible. As previously noted the bulk of moisture with this wave stays south, but we still favor for some light showers to be able to work through the stations. Any moisture looks to be short lived and rather light. Wind: Winds most of the daytime hours will be coming out of the N/NNE sustained at 18 - 23 MPH with gusts 23 - 28 MPH.

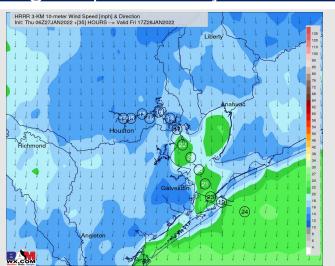

Temps: Looking at highs in the mid 50s.

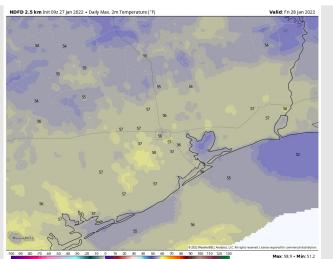

Visibility: No fog is expected today.

Precip Forecast: 7 AM CT

Wind Speed 9 AM CT

High Temps

Houston Pilots: Sat. 1/29/2022

Forecast Discussion

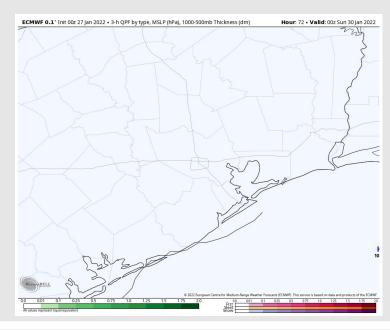

Precip: Favoring a quiet Saturday.

Wind: Winds will start out the day at 5-10 MPH with gusts locally higher (10-15 MPH) from the N. Around ~1-3 PM winds will calm and flip directions to the S/SSW at 8-13 MPH (gusts to 18 MPH).

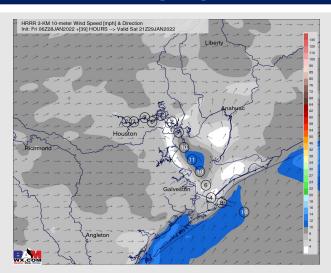

Temps: Highs again Saturday will be in the mid to upper 50s.

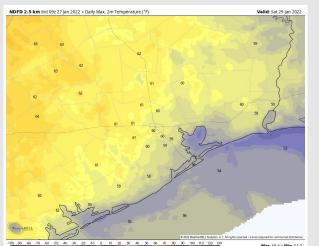

Visibility: Not anticipating fog for Saturday.

Precip Forecast: 6 PM CT

Wind Speed: 3 PM CT

High Temps Saturday

Houston Pilots: Sun. 1/30/2022

Forecast Discussion

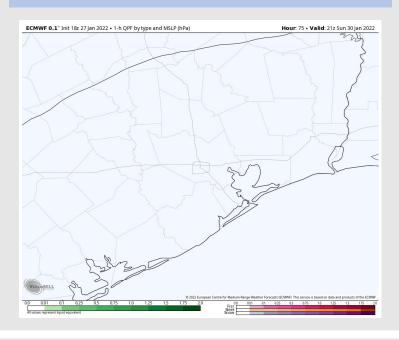

Precip: Anticipating dry conditions Sunday.

Wind: Winds look to sit 5-10 MPH with a few gusts of 10-15 MPH possible. Winds do vary in direction a bit from W to SW through the day. Before turning more southerly and increasing after sundown.

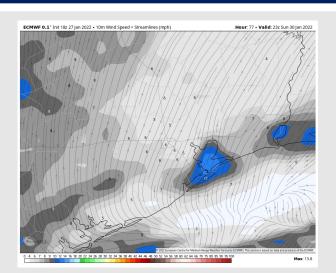

Temps: Highs anticipated to be in the upper 50s and lower 60s for the stations.

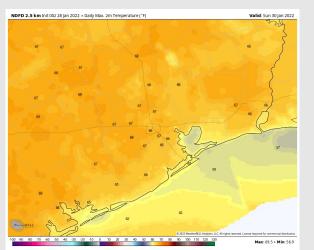

Visibility: No fog expected for Sunday.

Precip Forecast: 4 PM CT

Wind Speed 6 PM CT

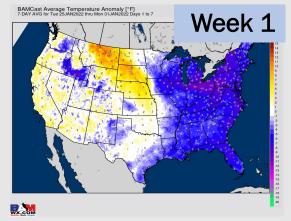

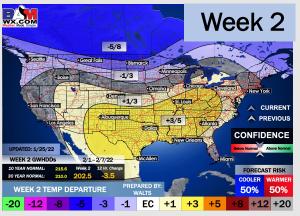

High Temps Sunday

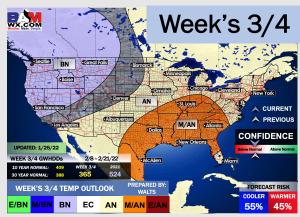

Houston Pilots: 1/28/22

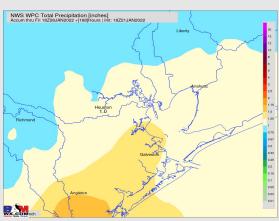

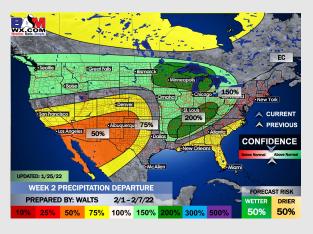

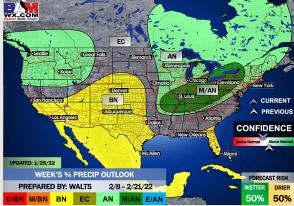

- Next best chances for precipitation will be coming Monday in the PM hours and then again Wednesday night.
- The week 2 timeframe is expected to have above normal temperatures with near normal risks for precip.
- Right now, we are favoring above normal risks for temperatures and slightly below normal risks for precip for the weeks 3 and 4 timeframe.
