Houston Pilots Extended Range Tropical Report

Tropical Model Tracks the Next 10 Days

European Data

American Data

No tropical threats noted over the next 10 days as model data (see above) keeps SE Texas rather quiet in this timeframe. However, we do want to mention a potential system beyond the 10 day timeframe which will need to be monitored. At this distance, there are more questions vs answers. However the set up beyond the 10 day timeframe is there and will need to be monitored moving forward.
