6 AM Weather Forecast

Saturday, July 30, 2022

Long Range Forecast Discussion & Scenarios: Aside from isolated chances of precipitation tomorrow evening, the MON into the early TUE AM time frame will be the main focus for shower/storm chances in the extended period. Depending on the timing of the cold front for MON afternoon into the overnight period, a few moderate to heavy pulses will be possible. Anticipating dry conditions right now for Wed. through Fri. at this time, with high temperatures in the lower 90's and heat indices reaching the mid to upper 90's F. Not favoring any concerns with gusty winds, with the exception of Monday-Tuesday as frontal system moves through the region. Occasional gusts should remain below 20-25MPH.
