Hazardous Weather Alerts:

None

IMPORTANT FORECAST NOTES (as of 1:00 PM ET, 4/25/23):

- ✓ Expecting dry conditions through the afternoon hours today. Tail end of the game holds a ~10% chance of a few sprinkles. Dry air near the surface will really eat at any precip that tries to move into the area (favoring dry conditions). This means radar will look more aggressive off to the west vs. what is actually realized. Total precip possible through Midnight with any sprinkles is ~ Trace to 0.02”
- ✓ Through the overnight/ early Wed AM , chances for light showers increase to ~20-30% and totals of Trace to 0.05” will be possible.
- ✓ No frost/freeze concerns Wed AM.
