## Hazardous Weather Alerts:

ALL CLEAR

## IMPORTANT FORECAST NOTES (as of 1:00 PM ET, 7/18/23):

- ✓ Chances through the remainder of the day/evening will be rather isolated in nature and no more than 20% given the expected sparse coverage of things.
- ✓ This low end risk of a pop up or two will be present out through 9-10 PM. To be clear, we are in favor of most (if not all) of the PM being dry, however given a front + energy nearby, a few isolated pop ups cannot be taken off the table into the evening hours. Any precip would be on the order of 0.1 - 0.4".
- ✓ Main risks with any cell would be locally moderate rain and lightning, but coverage will be rather hit and miss.
- ✓ Temps will sit in the mid to upper 70s for most of the game with a wind out of the E at 3-8 MPH.

## Dew Forecast

- ✓ Dew is favored working into Wednesday AM, ~80% chance.
