Hazardous Weather Alerts:

No Alerts

IMPORTANT FORECAST NOTES (as of 11:25 AM ET, 8/24/23):

- ✓ Favoring conditions remain dry until 3 PM. Between 3 - 9 PM, expecting a 30% chance for sporadic showers / storms to work into the area. Better coverage will be to the NE and some dry air will be at play over Pittsburgh, however any "moderate" shower on radar has the potential to overcome that dry air, resulting in a light shower.
- ✓ Previous thoughts of the heavy band working in around 11 PM now pushed further into early FRI AM. Now favored to work in after 2 AM.
- ✓ Anticipating feels like temperatures to be in the mid 70s / low 80s F around gametime and sustained winds out of the SE at 3-8 MPH, with gusts up to 15 MPH possible.

Dew Forecast

- ✓ Rain is favored tomorrow morning.
