7 AM Weather Forecast

Hour by Hour Forecast:

FORECAST NOTES

Current Weather Alerts:

Wind Chill Advisory

Temperatures:

- ✓ High temperatures likely only top out near 220 F
- ✓ Low temperatures tomorrow look to be near 12 -15 F.

Wind/Clouds:

- ✓ Max winds will be from 10 AM - 4 PM with gusts near 25 - 35 MPH. SW winds will be the theme sustained around 13 - 18 MPH during this timeframe. Winds will calm down there after to 3 - 5 MPH out of the SW.
- ✓ Mostly sunny conditions are expected this am with increasing clouds into the afternoon. Mostly cloudy conditions are expected after 4-5 PM.

Today's Precipitation Chances:

- Snow is expected tonight into tomorrow AM from roughly 9 PM - 10 AM THU (likely)
- Confidence is very low regarding snowfall amounts due to narrow nature of where heaviest band may set up/ differing model solutions

Favored Snowfall Totals

0.5" - 2"

Dew/Frost:

Outside of snow, frost formation cannot be ruled out due to higher winds. Generally, a 60% chance of this occurring

Favored Snowfall through 12 PM FRI

NEXT 5 DAYS: IMPORTANT FORECAST NOTES:

Precipitation:

- ✓ **THU:** Snow will begin to exit late morning with a more defined wave beginning around 5 - 7 PM. Snow will last through the remainder of the day/ night.
- ✓ **FRI:** Confidence starts to drop off on specific details on Friday. The bulk of the "system" snow likely exits around 4 - 5 AM. However, additional snow chances in the form of Lake Effect snow and light snow showers/ flurries will be at play through the day.
- ✓ **SAT:** AM flurries will be possible before drier air starts to move in. Overall system totals in the 3" - 6". Confidence remains low with snowfall totals
- ✓ **SUN:** Anticipating dry conditions as high pressure builds in
- ✓ **MON-FRI:** The pattern will start to pick up and will offer multiple chances of rain through the week.

Temperatures:

- ✓ Unseasonably cold air will continue over the next 5 days. Temperatures will begin a warming trend starting on Sunday.
- ✓ Wind chill values near -8 F to -14 F will be possible SAT AM/ SUN AM.

Wind/Clouds:

- ✓ Better sunshine will be possible SAT PM into portions of Sunday, although we will need to watch for clouds to become more present SUN PM, likely high based clouds.
- ✓ Given a more active pattern next week, expect next week to just be cloudier in general.
