Monday, February 12, 2024  
8:00 AM Weather Forecast

## Hour by Hour Forecast:

## Current Weather Alerts:

All Clear

### Temperatures:

- ✓ High temperatures today will reach the low 40s F near 43 F

### Wind/Clouds:

- ✓ Skies will be mostly sunny today with a few cirrus (wispy upper-level clouds) moving in towards the early afternoon
- ✓ Wind gusts will not be a factor today. Winds will be very light at 3 - 7 mph in a variable direction

## FORECAST NOTES

### Today's Precipitation Chances:

Favoring dry conditions today

### Snow totals /Icing concerns?

No icing concerns today

### Dew/Frost:

Frost formation will be possible tomorrow mainly on grassy areas (40% chance). There is a lack of cloud cover and winds into the AM that will promote frost development, but the main hinderance will be limited low level moisture. Development would be most likely from about 4 - 9 AM

## Blend of Models Snowfall Forecast Next 7 days

## NEXT 5 DAYS: IMPORTANT FORECAST NOTES:

### Precipitation:

- ✓ **TUE:** Dry Conditions favored as well, there would only be an isolated chance for a stray shower/snow shower in the evening
- ✓ **WED:** Data continues to trend drier out of this wave. Any precipitation would be very light in the early AM
- ✓ **THU:** The best opportunity to see some light, consistent precipitation, although latest trends keep CHI in the warm sector of the clipper system. It will most likely be rain showers during the AM hours
- ✓ **FRI-SAT:** Data continues to follow a drier trend on the magnitude of snow potential. There is still a wave to monitor for a snow risk mainly in the late AM to early PM Friday, but confidence remains low. A 1"+ snowfall event is still possible

### Temperatures:

- ✓ Small moderation in temps to start the week, ranging from the mid 40s to upper 30s F
- ✓ Coolest of temperatures arrive this weekend in the mid 30s F

### Wind/Clouds:

- ✓ **TUE/WED:** Best opportunity to see a mix of clouds and sun
- ✓ **THU/FRI:** Cloudy in the AM Thursday, with some sun breaking through with partial clearing in the PM. Friday will be mostly cloudy to overcast
- ✓ Cloudier days in store for the upcoming weekend
- ✓ Wind gusts exceeding 20 mph will be rare in the short term. The next "gusty" day of 25 -30 mph gusts arrives Thursday AM with the weak clipper
