2:40 PM Weather Forecast

Hour by Hour Forecast:

Current Weather Alerts:

All Clear

Temperatures:

- ✓ Low temperatures into the teens will be possible into tomorrow AM. Lows near 15 F will be possible.

Wind/Clouds:

- ✓ Mostly Cloudy conditions expected, although a few peaks of sun will be possible later this afternoon.
- ✓ Winds will pick up towards midnight with sustained winds near 10 – 15 MPH. Wind gusts near 25 MPH cannot be ruled out. Winds will gradually weaken after 3 AM.

FORECAST NOTES

Today's Precipitation Chances:

A few flurries will be possible from roughly 7 PM – 2 AM. Winds will be quite elevated which will help snow blow around vs stick. However, a coating of snow can't be ruled out in spots, especially areas well sheltered to a NW winds.

Snow totals /Icing concerns?

A light coating of snow cannot be ruled out due to flurries. Current thinking is this is a low-end risk.

Dew/Frost:

No frost is expected tomorrow due to elevated winds.
