6:10 AM Weather Forecast

Hour by Hour Forecast:

Current Weather Alerts:

None/ All Clear

Temperatures:

- ✓ High temperatures are expected to reach the upper 60s F. A high temp of 70 F cannot be ruled out.

Wind/Clouds:

- ✓ Winds will be on the elevated side today. Sustained SW winds of 12 -17 mph in the early afternoon with peak gusts of 22 - 27 mph from 1 - 6 PM.
- ✓ A blend of clouds and sun anticipated today. The early PM would hold the best timing for slightly more sun than clouds, but skies will be clouding up into the late evening

FORECAST NOTES

Today's Precipitation Chances:

Today is favored to remain dry.

Rain + Snow Totals:

Any low-end stray drizzle in the early AM hours of WED would yield a trace to 0.01"

Dew/Frost:

Light dew development cannot be ruled out tomorrow AM, although the confidence is lower than normal to see dew formation. Skies will remain mostly cloudy, however increasing low level saturation with calming winds can promote some development. Overall, it is more likely (60%) than not to see a light dew.

Rainfall Totals the Next 5 Days

NEXT 5 DAYS: IMPORTANT FORECAST NOTES:

- ✓ **WED:** A stray shower/drizzle cannot be ruled out in the early AM near 6, however chances remain very isolated (10%). A developing warm front in the PM can offer up light shower chances as well (post 6 PM best opportunity at 30%)
- ✓ **THU:** Watching placement/timing of a warm front, but rain showers with a few rumbles of thunder are very likely. Rain threats will be an all-day event. Best opportunity arrives near 6-7 AM. Storms are not favored to be severe in nature
- ✓ **FRI:** Timing has trended slightly quicker with this wave. Precip chances likely exit by 7 AM, leaving the rest of the day dry
- ✓ **SAT:** Watching a potential weak cold front, but for the most part any rain chances would be isolated/light towards the early PM.
- ✓ **SUN:** A few isolated showers and wet snow showers cannot be ruled out behind the cold front

Temperatures:

- ✓ Mild air will be in hold through Friday before temps cool off Behind Friday's cold front
- ✓ Temperatures will be more seasonable into the second half of the weekend

Wind/Clouds:

- ✓ Overall, mostly cloudy to overcast skies remain consistently over the area through Friday. SAT-SUN will see a blend of sun and clouds in between some sporadic rain/wet snow showers
- ✓ Do not see a strong signal for excessive winds. Right now, expect storms on THU/ FRI to stay sub-severe (strong storms are possible with 35- 45 mph gusts)
