## Confidence

TIMEFRAME DISCUSSED	THREAT
4 - 10 AM CT SAT	LOW

- Anticipating another risk for patchy fog to develop between 4 - 10 AM Saturday morning for stations N of Morgan's Point.
- The overall threat remains low tomorrow, however there is some data indicating a risk for visibility dropping to 0.5 - 2 miles in a patchy fashion... Again for only stations N of Morgan's Point
- Not favoring this risk to extend further south due to cloud cover / winds.
- Expecting 10 AM to be the latest this risk extends.
