

CLARITY WX

FOR GOLF COURSES

BY BAMWX

About Us

Finally! A weather forecast that closes the gap between automated weather data and human driven weather forecasts.

We are committed to giving you the best weather information that will help you make the best decisions for your golf course operation.

The Benefits of Clarity

01

Helps you keep your course in pristine shape.

02

Keeps your team and golfers safe.

03

Saves you time and money.

Trusted by the Best

I had four weather apps on my phone, and each one always gave a different forecast, or detail and some would even say it was raining, when in reality it was not. There is a detailed forecast each morning by a live meteorologist, and you can even send messages that they respond to! Your own meteorologist so to speak. What I like best, is that if they are uncertain of what may happen, they'll tell you. I am glad I found this service and look forward to more features to come!

Features for You

Our tools are customizable to help you understand the forecast for your specific needs.

EVAPOTRANSPIRATION RATES

Schedule your irrigation times with confidence.

24/7 CHAT WITH METEOROLOGISTS

We are here to answer your questions, day and night.

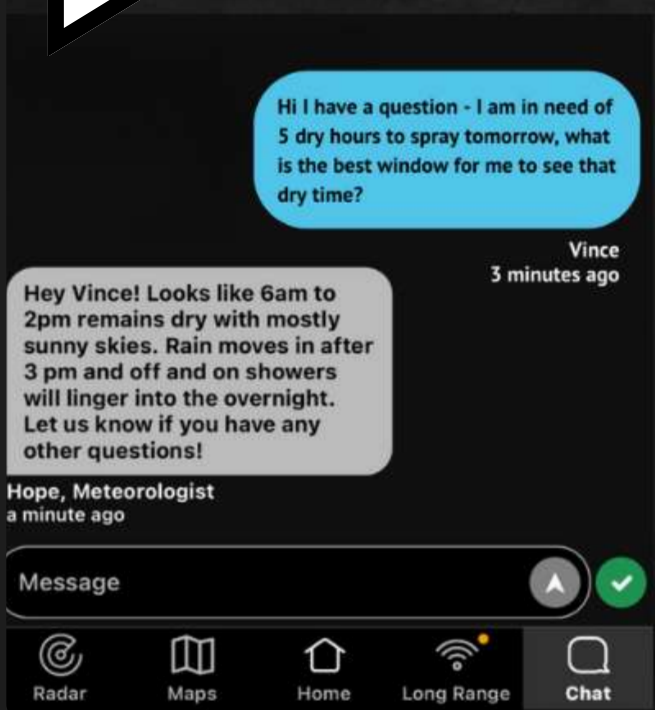

LIGHTNING ALERTS

Ensure you are prepared for the danger of lightning.

OBSERVED AND FORECASTED RAINFALL

Know how much rain has fallen (or will fall) at your course!

Hi I have a question - I am in need of 5 dry hours to spray tomorrow, what is the best window for me to see that dry time?

Vince
3 minutes ago

Hey Vince! Looks like 6am to 2pm remains dry with mostly sunny skies. Rain moves in after 3 pm and off and on showers will linger into the overnight. Let us know if you have any other questions!

Hope, Meteorologist
