Houston Pilots Visibility Report

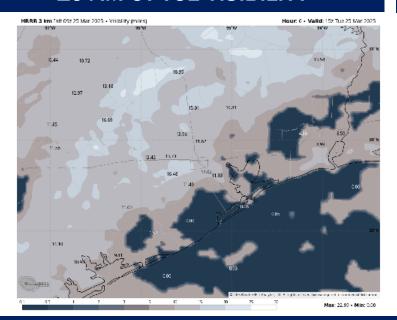

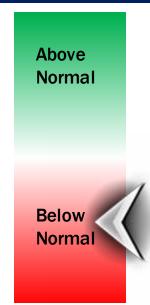

CURRENT as of 5:10 AM CT TUE

10 AM CT TUE VISIBILITY

Confidence

Patchy sea fog is currently impacting the Boarding Station and Station 11/12 occasionally reducing visibility to 2 miles.

Throughout the AM, patchy fog will continue to creep N into the Bay, impacting all stations S of Morgan's Point with visibilities of 1 – 2 miles by ~7 AM. A few isolated pockets of fog dropping visibility to less than 1 mile cannot be ruled out.

By ~8 AM, this patchy fog will have pushed N of Morgan's Point resulting in ALL stations being impacted by 1 – 2 mile visibility with locally down to less than 1 mile.

By ~10 - 11 AM, fog will begin to recede, improving visibility from N to S. By 12 - 1 PM, the only stations still at risk will be the Boarding Station and 11/12 where visibility of 1 - 2 miles /hazy conditions will linger throughout the day.

CURRENT - 12 PM TUE

Low to Med

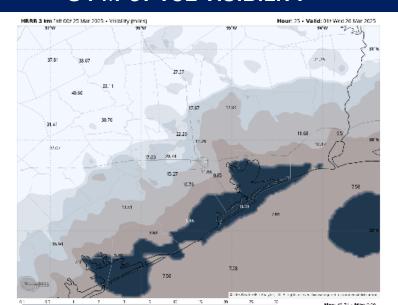

THREAT

Houston Pilots Visibility Report

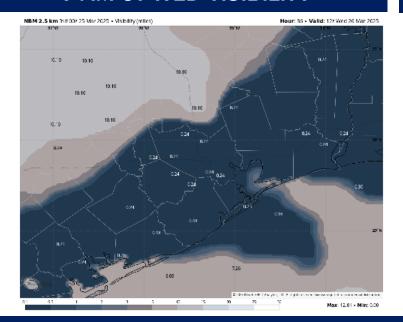

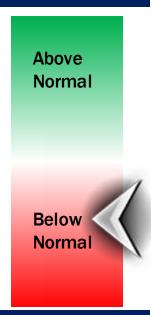

8 PM CT TUE VISIBILITY

7 AM CT WED VISIBILITY

Confidence

Patchy fog is expected to remain at the Boarding Station and Station 11/12 throughout the day following this AM's fog event.

After 8 PM, additional patchy sea fog risks are expected to form for Stations S of Morgan's Point.

Sea fog risks will stay secluded to **Stations S of Morgan's Point** through 4 AM Wednesday before expanding to all **Stations**.

Visibilities of 1 – 3 miles will be in play for any impacted station.

Visibility is expected to improve after 10 AM Wednesday.

TIMEFRAME THREAT DISCUSSED 12 PM TUE - 10 AM WED Low-Med
