12:00 PM ET Weather Forecast

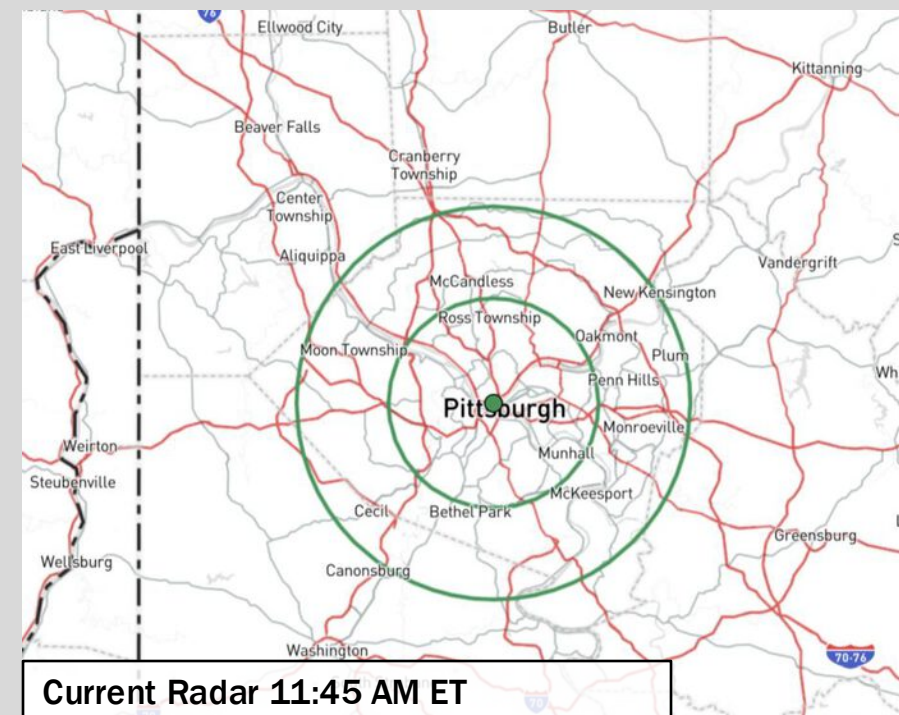

HOUR BY HOUR FORECAST:

Hazardous Weather Alerts:

ALL CLEAR

IMPORTANT FORECAST NOTES (as of 12:00 PM ET, 5/1/2025):

- ✓ Watching for a very low end risk for an isolated showers / storm between 1 – 3 PM, however our gut call is that you remain dry throughout the game.
- ✓ Between 4 – 7 PM, there will be a low risk for pop-up showers/storms (20%). An additional 0.05 – 0.15” possible if caught under a pop up in this window.
- ✓ The “main wave” isn’t expected to move through until 7 – 9 PM where coverage will be more widespread. Overall, pending how many of these cells you get caught under, we expect totals reaching 0.75” today, a risk for locally heavier.
- ✓ Afternoon and evening storms will pose a risk for 40 – 60 MPH winds, small hail and very isolated tornadoes.

Dew Forecast

- ✓ Grounds will be wet FRI AM from previous rains and dew.
