7:30 AM CT Weather Forecast

Winds Today

Hour by Hour Forecast:

FORECAST NOTES

Today's Precipitation Chances:

Isolated showers bringing light rain are possible between the 2 - 3 PM timeframe. Between 3 - 7, dry conditions are favored (hourly forecast is a little aggressive). By 7 PM, scattered thunderstorms move into the area with a risk of lightning, hail, and wind gusts ranging from 40 - 60 MPH. This system will move out around 2 - 3 AM on Wednesday.

Rain Totals:

If hit by a pop-up shower, expect an accumulation range of a trace - 0.05". With the thunderstorms in the evening, expect an additional 0.25 - 0.5" of rain. However, because of the scattered nature of this system, some local areas could see more than an inch (that said, the heavier rain risk is favored to be south).

Dew/Fog:

Grounds will be wet WED AM.

Current Weather Alerts:

ALL CLEAR

Temperatures:

By first pitch, temperatures will be in the mid to low 80s and will drop into the mid to high 70s by the time the game ends.

Wind/Clouds:

Minimal cloud cover today until around 7 PM when clouds start to roll in with the incoming rain.

Sustained winds of 7 - 13 MPH with non thunderstorm gusts up to 16 MPH.

Wind Direction:

Winds will generally be blowing from Homeplate to CF until between 9 and 10 PM when the winds shift to blow from the 3B line to 1B line.
