**Hurricane
Melissa has
formed in the
Caribbean and is
favored to
impact Cuba
before turning
out into the
Atlantic.**

**No impacts are
expected for
Houston.**

Houston Pilots Tropical Update

Hurricane Melissa Outlook

Updated: 10/25/25

KEY NOTES

- Hurricane Melissa is expected to SLOWLY move westward this weekend and make landfall in Jamaica early next week - likely as a major hurricane (large track spread remains, however).
- The trend has been **west** closer to the Bahamas, but the threat for a US landfall remains **very low**. The SE Florida coast should at least monitor for elevated waves if the west track verifies.
