Houston Pilots Visibility Report

4 AM CT FRI Visibility

7 AM CT FRI Visibility

Confidence

Dense fog will once again be possible FRI AM, especially for **stations 25/26 and stations to the north.**

In general, the best threat for dense fog will be for **Stations N. of Morgan's Point.**

The fog threat will begin from 1 – 4 AM, with current anticipation to be more widespread N. of Morgan's Point. However, visibilities of 1 mile or less will still be possible between Stations 25/26 and Morgan's Point through 4AM, where the threat is expected to be patchier.

The fog threat increases after 4 AM FRI through 8 AM where more widespread visibilities of 0.5 mile or less are expected. Any activity is expected to become increasingly isolated towards 9 AM before fog is anticipated to scour away.

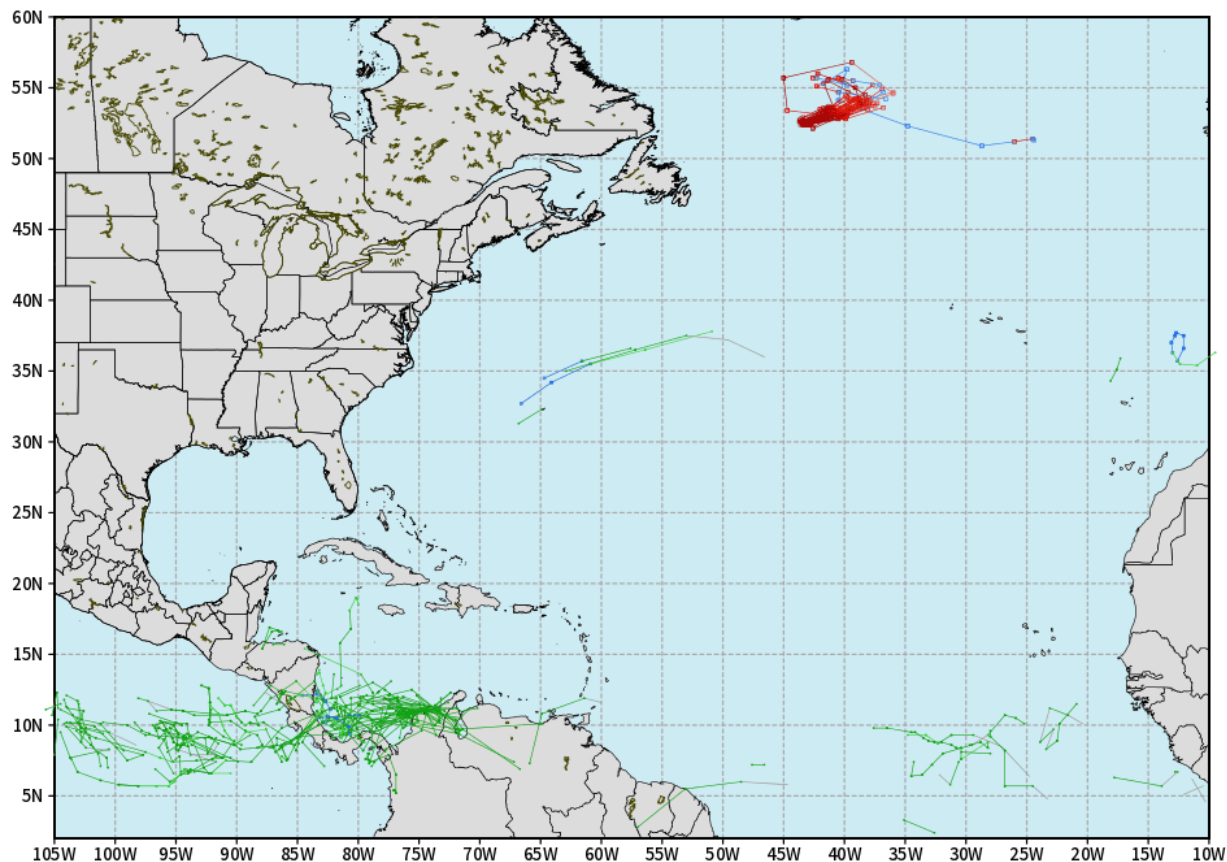

TIMEFRAME DISCUSSED	THREAT
2 AM - 9 AM FRI	Medium
