### THREAT

Medium

**N. of Morgan's Point:** Conditions are more likely to be misty than foggy through 11 AM FRI. A few instances of fog with visibilities <2 miles may be able to work in toward Lynchburg Ferries from 6AM to 9AM.

**Between Morgan's Point and the Boarding Station:** Misty conditions may reduce visibilities to <4 miles through ~11PM. Patchy fog may begin to form after 11PM with visibilities of 1 – 2 miles, with some pockets having less than a mile of visibility, are possible. The Station most at risk for fog will be the Boarding Station during this timeframe. Pockets of visibilities <0.50 mile at the Boarding Station will also be possible. *Confidence is below normal due to elevated winds and warmer sea surface temperatures, which will help alleviate the threat. Widespread impacts are not favored.*
