THREAT

Low-End

Isolated pockets of reduced visibilities down to 2 miles will be possible mainly from **Morgan's Point to Station 25/26**.

Locally dense pockets of fog with visibilities near 1 mile will be possible with the greatest risk for this from 3AM – 8AM.

Most Stations will likely stay fog-free; however, isolated pockets will still be possible.

While confidence is lower than normal with this threat, conditions do look better for fog risks than they do for Friday morning thanks to decreased wind speeds and more clear skies.
