Houston Pilots Visibility Report

(1AM CT FRI) VISIBILITY

(7AM CT FRI) VISIBILITY

Confidence

TIMEFRAME DISCUSSED	THREAT
CURRENT-10 AM FRI	MED-HIGH

Stations N of Morgan's Point: Isolated sea fog will be possible between 9PM – 6AM, with visibilities occasionally getting below 2 miles. Confidence is lowest for these stations on coverage and timing.

Morgan's Point to 25/26: Patchy to widespread dense fog will be favored as early as 7PM, but will be most prominent between 10PM – 8AM, with visibilities of less than 1/2 mile likely.

Station 11/12 & Boarding Station: Widespread Dense fog will likely linger through 10AM Friday with visibilities at times near 1/4 mile. The only period where fog can become patchier with some differences in winds will be 6AM – 10AM. Beyond 10AM, confidence is lower, but we do favor at least 2-4 mile visibilities to be present into the afternoon.

Houston Pilots Extended Range Visibility Report

Sunday 03/08/2026

Fog is not expected with the passing of a front.

Monday 03/09/2026

Fog is not favored.

Tuesday 03/10/2026

Fog is not favored.
