None Forecasted

IMPORTANT FORECAST NOTES

Dew Forecast

Wet grounds possible Wednesday morning from overnight light showers.

- ✓ Dry conditions are favored today.
- ✓ Scattered light showers are anticipated between 5AM – 10am Wednesday morning. Dry air will help limit what reaches the surface, however the greatest risk for drizzle to reach the surface will be between 8-10 AM. Totals of 0.01” – 0.05” will be possible.
