IMPORTANT FORECAST NOTES

Hazardous Weather Alerts:

None Forecasted

Current Radar: 8:48 AM ET

Dew Forecast

Dew likely Wed AM / wet grounds from Tue Evening Rains.

- ✓ A few isolated showers possible this morning between 10AM and through 2PM ET this afternoon. Coverage will be ~30% and these will generally be light (<0.05").
- ✓ A small gap possible in the mid-afternoon but increasing pop up storm risks especially between 6 and 10PM ET. These pose a higher risk of briefly heavier rain and lightning, but coverage will again generally be scattered (~40% coverage).
- ✓ A few isolated showers possible after 10PM through 3-4 AM ET.
