HOUR BY HOUR FORECAST:

HAZARDOUS WEATHER ALERTS

No Current Alerts

Current Radar: 1:50 PM ET

IMPORTANT FORECAST NOTES

- ✓ Rain activity west will move towards the area over the next few hours. It looks to generally remain scattered in nature but can pose the risk for a few light to moderate showers through especially 5PM. Most likely rain totals 0.1" or less.
- ✓ After 5PM, coverage of rain activity becomes increasingly isolated with much more dry time than not and plenty of opportunities to get the evening game in. More scattered rain/storms likely into Thu. AM.

DEW FORECAST

Wet grounds likely Thu AM from Wed. rain/patchy dew.
