IMPORTANT FORECAST NOTES

- ✓ The trends have been to keep the steadier rain south/east of the area. However, we do expect intermittent mist/drizzle to continue to be an issue throughout the day with a few isolated showers. This will likely keep the field damp. A trace to 0.1" max likely throughout the day.
- ✓ Expecting cloudy conditions to prevail all day. Winds expected to gust especially this afternoon at 20 – 30 MPH out of the east.
- ✓ Higher potential for localized pockets of moderate to heavier rain generally hold off until after midnight.
